

Combine fun & functionality with WipeOut™

WipeOut™ is a 3 mil (75µ), premium clear PET overlamine with a dry erase hard coat. Graphics that are laminated with WipeOut™ can be written on - even in printed areas - without ghosting or staining from ink. The chemical and scratch-resistant clear gloss surface of WipeOut™ safeguards against these concerns. When compared to other high quality dry erase boards, WipeOut™ is remarkably easy to erase. Its anti-graffiti properties also allow for easy removal of permanent marker with rubbing alcohol. Available in widths up to 61" (1549mm).

For a matched component solution, pair WipeOut™ with ReTac® 150 print media to produce personalized dry erase graphics that can stick to and be removed from virtually any smooth surface. ReTac® 150 is compatible with solvent, UV and latex printers.

Create dry erase boards for these environments:

OFFICE

SCHOOL

HOME

HOSPITAL

How to Create Your Own:

- 1** Print graphics on ReTac® 150
- 2** Affix WipeOut™ to printed ReTac® 150 with a roller laminator
- 3** Cut out laminated graphic prints
- 4** Apply graphic prints to wall for dry erase use
- 5** Remove cleanly anytime
