## Club Med

"As a construction manager specializing in high-end themes, I was immediately convinced by Cover Styl'.

For the Club Med Group, Cover Styl' is the perfect solution for the renovation of our holiday villages and a good substitute for various carpentry work on doors, design elements and furniture.

This technical solution has a twofold advantage: the implementation and speed have positive economic impacts and require less time than conventional renovations.

The decorative

possibilities, structures and different colors offer designers a greater choice than conventional products.

After a first, very satisfying experience, Cover Styl' is now a part of our product references."

Frédéric Davi, Assistant Construction Manager for Europe and Africa.

NOVOTEL  
HOTELS, SUITES & RESORTS

During the partial renovation of our Novotel in Roissy, France, we decided to use Cover Styl' to redo our Bar Lounge and Spa.

I must say that I've been pleasantly surprised by the reactivity and the advices provided by the Cover Styl' team. The solution/product itself is amazing by the quality of the result. The big potential of this covering product is astounding, especially since the installation support were not simple flat surfaces.

Beyond the very nice finishes submit by Cover Styl', the architect select some specifics RAL, that has been customized for this refurbishment. This advantage saved us a lot of time and this is a true asset for Cover Styl'.

That's why I strongly recommend using Cover Styl for the Hotels, especially with its incontestable Price / performance ratio.

I'm convinced that the word of mouth will make Cover Styl the best refurbishment solution in the future.
